---

*Self-taught and full of ambition. First generation citizen with an aptitude for languages – programming and otherwise.*

### CURRENT PROFILE

#### amagazi / Full Stack JS Developer

NOV 2017 - CURRENT, HOUSTON, TX

Full stack website design, development, testing and deployment using tools such as React, Node, Next, Webpack, JQuery, SCSS, Bootstrap, as well as Amazon Web Services, CMS platforms, and Adobe Creative Suite.

Develop with SEO and bandwidth optimization in mind.

Conduct user research. Gather and evaluate user requirements in collaboration with clients.

Illustrate design ideas using mood boards, wireframes and sitemaps and develop UI mockups and prototypes that clearly illustrate how sites function and look.

Create high-level concept strategies and campaigns for clients outside the realm of web.

Spearheaded the research, development, and presentation of US-Latino marketing trends to the US-Mexico Chamber of Commerce: "The New Latinx: A Translation of Identity & Influence in the Digital Age."

---
